

# Ultra★Sport <sup>™</sup> Luminaire with Hot Restart Option

#### READ THOROUGHLY BEFORE INSTALLING

## WARNING

#### Risk of electric shock

Turn power off before servicing
see instructions

**NOTE:** Make all electrical connections in accordance with the National Electrical Code and any applicable local code requirements.

### WARNING

#### Risk of fire

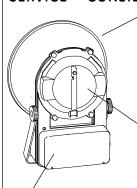

- Keep combustible materials away from lens – see instructions
- Use lamps specified on nameplate

**NOTE:** Do not place combustible materials within 7 feet (2 meters) of the front of the reflector lens.

This luminaire is designed for use in outdoor applications and must adhere to 25°C Max. ambient temperature limitation unless otherwise stated on nameplate. Install and maintain it according to the following recommendations

**NOTE:** Verify that supply voltage is correct by comparing it to nameplate.

#### SERVICE CONSIDERATIONS

#### Sealed Reflector Assembly

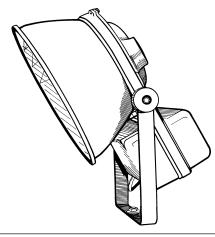

Luminaire is equipped with a safety circuit to prevent lamp operation if the lens is broken. If any component such as reflector, lens or casing is damaged the complete assembly must be replaced.

#### **Relamping Door**

Luminaire is shipped with lamp in place. Door may be opened for relamping. Door must be sealed during operation.

Ballast Compartment

**DO NOT REMOVE THIS COVER!**—There are no field serviceable components under this cover. Ballasting components must be maintained by factory trained service technicians only.

#### Unit will fall if not installed properly

Follow installation instructions

#### STEP 1 - INSTALLATION PROCEDURES

Verify that the drain holes are in the proper locations for the intended aiming direction. If not contact the factory.

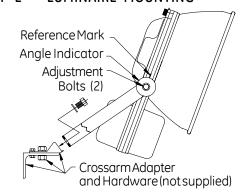

Drain holes for fixtures aimed below horizontal.

Drain holes for fixtures aimed above horizontal.

#### STEP 2 - LUMINAIRE MOUNTING

#### Step 3 - LUMINAIRE AIMING

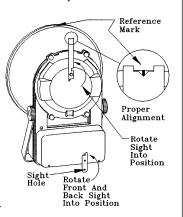

Two sighting systems are provided for your convenience. Use the sight system which is most easily accessed.

#### Optical Sight:

- A. Rotate sight into vertical position.
- B. Align the reference mark of top of reflector flange with notch in sight for proper aiming.

#### Base Sight

- A. Rotate front and back sight into vertical position.
- B. Align the two sighting holes for proper aiming.

# Sighting Device lowered into position Reflector reference Mark Sighting Device raised into position

After positioning luminaire, tighten all mounting hardware.

#### STEP 5

Connect power cable to suitable supply in accordance with all applicable codes.

#### INSTALLATION CLEANING

#### DO NOT CLEAN INTERNAL OPTICAL SYSTEM

The UltramSport floodlight has been specially cleaned at the factory. Field cleaning of the internal optical system during installation is not recommended.

#### **EXTERNAL CLEANING**

Initial cleaning of the outside of the glass lens may be required to ensure optimum optical efficiency.

Clean front glass with a mild soap and water solution, rinse clean and wipe dry.

#### CLEANING INSTRUCTIONS AND CAUTIONS

Caution: do not touch quartz tube with bare hands! If lamp is handled, finger prints, grease or oils should be removed from the lamp with isopropyl alcohol. This will remove materials which cause whitish spotting and premature lamp failure. Dry lamp carefully with cotton or clean cloth.

# PERIODIC CLEANING WHEN RELAMPING INTERNAL

Should the internal reflector system require cleaning, use only non-abrasive, neutral (pH 6-8) cleaner containing no chlorinated or aromatic hydrocarbons. Rinse clean and wipe dry.

#### **EXTERNAL**

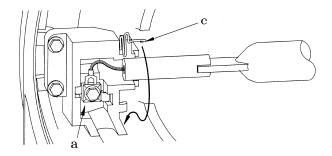

Clean front glass with a mild soap and water solution, rinse clean and wipe dry.

# **A** CAUTION

#### Risk of burn

 Allow lamp/fixture to cool before handling

#### LAMP REPLACEMENT

A. Insert the lamp terminal into the socket terminal (a) at both ends of the lamp and tighten screws.

- B. Snap the lamp ends into the lamp retaining clips (b).
- C. Close and rebolt the relamping door. Tighten bolts to 50 in. lbs. torque.

#### REMOTE BALLAST MOUNTING

See below illustration for bolt spacing and bracket minimum spacing.
